TECHNICAL SKILLS

CLOUD

AWS, Azure

NETWORKING

Cisco, Meraki, SD-WAN, Routing & Switching, VPN, Firewalls

INFRASTRUCTURE

Windows Server, Linux, Active Directory, VMware

AUTOMATION

Python, Terraform, Docker, Git

MONITORING

SolarWinds, Wireshark

EDUCATION

Arizona State University

B.S. Computer Science

Expected Nov 2027

St. Petersburg College

A.S. Web Development

May 2021

Canadian International College

B.S. Information Technology

May 2017

PROFESSIONAL SUMMARY

Network Support Engineer with experience supporting enterprise Cisco SD-WAN, VMware VeloCloud, Meraki switching, VPNs, routing, firewalls, and cloud-connected infrastructure. AWS Certified Solutions Architect – Associate and Microsoft Azure Administrator Associate with a strong passion for cloud engineering, networking, automation, and scalable infrastructure solutions. Continuously learning and expanding expertise toward Cloud Solutions Architecture.

PROFESSIONAL EXPERIENCE

CDK Global

Network Support Engineer

Jan 2025 – Present

- Troubleshoot Cisco SD-WAN and VMware VeloCloud edge routers, resolving VPN, routing, NAT, static-route, and WAN failover issues across the enterprise network.
- Configure and support Cisco Meraki switching environments, including VLANs, trunk/access ports, STP, and Layer 3 connectivity.
- Diagnose outages and performance issues using SolarWinds, Wireshark packet captures, and device-level logs.
- Troubleshoot firewall policies, VPN tunnels, and routing changes to maintain secure, reliable connectivity.
- Manage and document incidents in Salesforce while consistently meeting SLA and response-time targets.

Danfoss

Senior IT Specialist

Aug 2023 – Jan 2025

- Resolved IT incidents end-to-end using ServiceNow, maintaining high first-contact resolution rates.
- Administered user accounts, permissions, and access across Active Directory and Microsoft Azure/365.
- Diagnosed and resolved hardware, software, and network connectivity issues for enterprise users.
- Partnered with cross-functional teams to ensure timely issue resolution and minimal downtime.

Direct Components

Software Engineer

Jun 2022 – Aug 2023

- Developed and maintained business applications on the Zoho development platform.
- Wrote and optimized SQL queries for data retrieval, reporting, and application functionality.
- Tested, troubleshooted, and resolved software issues to improve application performance and reliability.
